IANA Annual Audits

2017

Review of the IANA Functions Confidential Audit Report -- 2018

On 22 January 2018, ICANN provided a copy of the confidential audit report of the IANA functions for the period covering 1 October 2016 through 30 September 2017. Individuals appointed by the IAB and the IAOC reviewed the confidential audit report on behalf of the IETF. Those individuals report that the audit found no exceptions in the processing of protocol parameter requests, which means that all spot-checked updates to the IANA protocol parameter registries were made in accordance with the policy for that registry.

2016
