Notes:

- (1) For 2007, the ISOC Board approved a contribution to IETF/IASA of \$1,325,107.
- (2) As of November 30, \$1,062,107 was needed in addition to IETF meeting receipts and sponsorships to meet expenses.
- (3) Revenues are \$211K ahead of budget for the year-to-date. For the remainder of the year, revenues are forecast to be \$121K better than budget. An unbudgeted portion of the revenue comes from the fact that we are now offering a "turnkey" NOC solution to sponsors.

 Therefore, NOC host contributions are now included in Revenue, and NOC outsourcing costs are now included in Other Meeting Expenses.

Current Month

- (4) Year-to-date Sponsorship revenue consists of \$150K from NeuStar, \$23K from CZ.NIC, and \$84K from Motorola.

 Forecasted Sponsorship revenue and Host contributions include \$20K from Huawei Technologies for the Vancouver meeting in December, \$20K due from Motorola for additional NOC expenses for the Chicago meeting in July, and \$150K from Cisco.
- (5) Registration revenues are forecasted to be down by 3% for the year. In addition, miscellaneous revenues of \$10K will not be realized.
- (6) NOC outsourcing expense element added to "Other Meeting Expenses". This line item is (\$251K) over budget Year-to-Date due to the fact that the NOC outsourcing expenses were not included in the original 2007 budget; however these expenses will be mostly offset by Host contributions and sponsorships from CZ.NIC.
- (7) RFC Editor converted from quarterly invoices to monthly invoices in July.

 (Note: The actuals also include \$32K of 2006 expenses that were billed to ISOC in May 2007, which was after the 2006 audit was completed; therefore they are part of 2007 figures.)
- (8) Total budget shortfall for the year is forecasted to be (\$163K).
