

Network Services RFP Qs & As 27 Jan 17

We received one question from potential bidders:

Q1. How would you like us to address shipping costs which vary from meeting to meeting and we have no control over?

A1. Section 8.f of the RFP calls for sample quotations for meeting in three cities: Yokohama, San Francisco and Berlin. Please estimate the shipping of the equipment from Portland, Oregon to each of these cities and back again. You may indicate that an estimate is provided, but clearly indicate your markup, if any.
