

Q&A WG RFP

Q1:

With reference to the RFP entitled "RFP for Requirements Development for Working Group Chairs and Authors Extension to the Data Tracker" which can be found (as a PDF file) at <http://iaoc.ietf.org/documents/WG-Specifications-RFP-12-15-09.pdf>:

The first "Deliverable/Task" in the Statement of Work (on page 5 of the RFP) begins with the following text:

"The Contractor is to refine the I-D, Definition of Working Group Document States, <http://www.ietf.org/id/draft-ietf-proto-wgdocument-states-00.txt>, and publish Ver-01 by 1 March."

Approximately 10 days after the RFP was published, the Ver-00 I-D was revised by the author. This means that Ver-01 of the document already exists. The new draft is may be found at: <http://www.ietf.org/id/draft-ietf-proto-wgdocument-states-01.txt>.

Should bidders assume that you are still looking for further work on the above Internet Draft? If yes, then I assume the first deliverable is to publish a Ver-02 of the I-D by the 1st of March, 2010.

A1:

That is correct. The first deliverable is to publish a Ver-02 of the I-D by the 1st of March, 2010.
