A. Summary

The IETF Administrative Oversight Committee (IAOC), on behalf of the Internet Architecture Board (IAB), announces this Request for Proposal for an RFC Series Editor contractor. The Internet Society (ISOC) will be executing the contract on behalf of the IAB.

The RFC Series Editor (RSE) has overall responsibility for the quality, continuity, and evolution of the Request for Comments (RFC) Series, the Internet's seminal technical standards and publications series as set forth in RFC 6635. The Series documents technical, operational, and organizational details about the Internet, covering many aspects of computer networking, including protocols, procedures, programs, and concepts.

The RFC Series was created in 1969 and publishes over 350 new RFCs every year. The RFC Series Editor has both operational and policy development responsibilities, including the editorial management of the RFC Series and the development of policies for editing, publishing, archiving, and accessing RFCs. Editorial management includes supervising the RFC Production Center and the RFC Publisher contractors, which review, prepare, and publish RFC Series documents. This is an editorial management position, and does not have direct responsibility for editing RFC Series documents or document publication determinations.

The RSE reports to the RFC Series Oversight Committee (RSOC), a committee of the Internet Architecture Board (http://www.iab.org). RSOC is managing the RSE selection process and advise the IAB on the candidate appointment.

The initial contract term will be for two years, commencing on January 1, 2018. The Contract may be extended twice by mutual written agreement of the parties with each Extension being for a period of up to two years upon the same terms and conditions.

The Contract will be for a fixed price, plus expenses.
