

The following question was received regarding the RSE Search RFP.

Q1. The proposal format requests an Annual Report of Business. Can you explain how much detail is required for this section?

A1. An annual report is a year-end summary of a company's financial status. The purpose of providing an annual report is to provide a means for evaluating the viability of a business entity. These reports are required by the Securities and Exchange Commission in the US for publicly-traded companies. Publicly-traded companies are required to provide a copy of the report or a link to the report online. Private companies are not required to provide an annual report.
